<b>ADMINISTERING</b> To provide or apply a prescription drug for immediate use within the provider’s practice location.	<b>OPIOIDS</b>	<b>CONTROLLED SUBSTANCES</b>	<b>ALL PRESCRIPTIONS</b>
<i>No Requirements Identified</i>			

\*The PMP query is required when the podiatrist is practicing in Iowa. This includes treating patients at an Iowa practice location, as well as follow-up care that may occur telephonically, and treating patients located in Iowa using telehealth. A podiatrist with a patient who resides in another state is strongly encouraged to query the patient’s state of residence, if available, or to query that state’s PMP, if registered to do so. Any podiatrist who is in a border-state community is strongly encouraged to check the box to query the border state if that option is available.

A podiatrist can delegate the PMP query to another licensed or registered individual(s). Each delegate must have their own log-in credentials with the PMP.
